INTERNATIONAL AGREEMENT
ON BREEDING, RACING AND WAGERING

International Federation of Horseracing Authorities
46 place Abel Gance, 92100 BOULOGNE, France
Tel : + 33 1 49 10 20 15 ; Fax : + 33 1 47 61 93 32
e-mail : secretarygeneral@ifhaonline.org
Internet : www.ifhaonline.org
Changes made since the previous edition dated March 2012:

- **Classification of Articles in IABRW**: New Index by subject.
- **Article 1**, renamed: Recognition and Categorisation of Quality Races (Group/Graded and Listed), completely rewritten.
- **Article 3** - Traceability of International Movements of Horses: new text for § 2 – Permanent exportation.
- **Article 3 A** - Clearances in relation to horses racing abroad: Amendments to § I - GENERAL.
- **Article 3 B** - Clearances for horses breeding purposes: minor changes and addition of a new 4th alinea in b).
- **Article 3 C** - General Notification of Movement (GNM): Addition of a third alinea.
- **Article 3 D** – Addition of a 2nd paragraph
- **Article 5**, renamed: Horse Performance Records, completely rewritten.
- **Article 7** - Shoeing of Racehorses: completely rewritten.
- **Article 9** – minor amendment in the last sentence.
- **Article 12** - Definition of a Thoroughbred: Slight amendment to § 6.1.4.
- **Article 14** - Registration of Name: Addition of an alinea at the end of § IV.
- **Article 15** - Identification of Horses:
  - Amendments in § 2.1 and in 2.2.
  - Addition of a new § 3 – Horses of Ambiguous Sex.
- **Article 16** - Guaranteed Money for Entries: completely rewritten.
- **Article 21** - Transfer Accounts: Deletion of the last alinea.
  *

- **Appendix 2 of Article 4** – International Code of Suffixes:
  - Addition of GDR – East Germany, OM - Oman, RHO - Rhodesia, RU – Russia up to and including 1990, SRH – Rhodesia, SU - Soviet Union (1922 to 1990), in the list of suffixes.
- **Appendix 8 of Article 12** – List of Approved Stud Books:
  Addition of Oman
  *

- New signatories of IABRW Articles from now on:
  o **Article 11 bis**: Ireland

*

WAGERING

Article 28 : Wagering ......................................................................................................................76
  Appendix 11 : International Pre-race Data in Support of Race Cards .................................77
Article 28 bis : Standard for Electronic Transmission
  of Pre-Race Information Related To Wagering ............................................................................77
The International Agreement on Breeding, Racing and Wagering is published by the International Federation of Horseracing Authorities and brings together a series of Articles, appendices and guidelines setting out recommended best practice in significant areas of racing, stud book administration and wagering common to all jurisdictions. The Agreement is designed to assist horseracing authorities by promoting the following objectives:

- to enhance public confidence in the integrity of the sport of racing and of its breeding industry.
- to protect the safety and welfare of horses and riders.
- to coordinate and harmonise approaches across the world of racing and breeding to promote the growth of the international dimension.
- to maximise opportunities for the promotion of racing and for its financial welfare by protecting racing’s intellectual property rights from piracy by non-authorised wagering operators.

All members of the Federation commit themselves to furthering those objectives and undertake to use their best endeavours wherever this is reasonably possible. Under each Article is a list of those countries which have adopted the Article, indicating in some cases those parts which they have excluded. Members who have adopted an Article in full or in part shall make provision within their domestic rules implementing its intentions.
The IFHA, in its role to promote good regulation and best practices internationally across horseracing, recognises the central role played by the horse itself and so the importance of its welfare. The Federation, recognising the diversity of cultural, political and legislative and other perspectives that underpin approaches to animal welfare around the world, has therefore adopted a number of broad principles of racehorse welfare that would be implemented by the Federation’s members into detailed local outputs to assure racehorse welfare:

**Principles:**

1. Cruelty to racehorses is not tolerated by Horseracing Authorities.
2. Horseracing Authorities by implementing, publishing, monitoring and enforcing appropriate policies, Rules and by other activities, and as much as this is in the direct or indirect control of these Authorities, should assure that the participants in horseracing themselves meet their responsibilities to provide suitable care for the racehorse before, during and also after racing.
3. Reasonable steps should be taken to prevent unnecessary pain and distress of racehorses by ensuring adequate care, a suitable diet, the ability to exhibit normal behaviour, appropriate housing, controlling practices and therapies used in racing and training, and by protection from injury and disease.
4. In the context of these responsibilities of participants in horseracing for racehorse care it is recognised that properly conducted euthanasia can be a humane option for racehorses; for example for individual horses with severe acute or severe chronic injuries, or where care would be inadequate, as so pain and distress is likely to be the result.
5. Whilst horseracing carries risks, reasonable steps should be taken to prevent avoidable risks and research ways of reducing the risks that are currently unavoidable, and to share this information between Horseracing Authorities and participants in horseracing.

*
1. Introduction

A convention has been established whereby Racing Authorities, in categorising the races of the highest quality run in their respective countries, apply common descriptions. These descriptions, and abbreviations thereof, are shown below, in descending quality order:

- Group 1/Grade 1 (Gr 1)
- Group 2/Grade 2 (Gr 2)
- Group 3/Grade 3 (Gr 3)
- Listed or Listed Restricted (L or LR)

Such races are set out in the International Cataloguing Standards (ICS) Book published by the Jockey Club Information Systems, Inc., in association with the International Federation of Horseracing Authorities (IFHA).

The ICS Book separates countries and/or races into three sections, Part I, Part II and Part III. Group/Graded races in Part I are recognized as such internationally. For countries in Part II and Part III, the country code is included as a prefix to the Group/Grade to denote domestic recognition. Further recognition of Group/Graded and Listed status is included in section of 3 of this Article.

Group/Graded races contained in Part I are also listed on the IFHA web site (www.IFHAonline.org).

2. Procedure for the Selection/De-selection of such races.

2.1 Granting Group/Graded Race status or upgrading a race to a higher Group/Grade, must be justified by the quality of the runners.

2.2 Granting Listed Race status must be justified by the quality of the runners or by published National standards that ensure quality runners.

2.3 Conversely, except in exceptional circumstances, Group/Graded Races must be downgraded or lose their status if the quality of the runners does not justify it and Listed Races must be downgraded if the quality of runners does not justify it or if they do not adhere to published National standards that ensure quality runners.

Note: ‘Quality’ can be assessed by different systems in different regions: ratings, last performances, points.

3. Implications of Such Categorisation

Such categorisation is relevant in recognizing the highest class races conducted for domestic and international purposes. Additionally, such categorisation is relevant:

(a) In the treatment within sales catalogues of horses which have performed in such races

(b) In determining whether a horse is qualified for a race and/or the weight it is assigned - race conditions may make reference to the categorisation of the races in which the horse has previously competed. In such cases, whether a race in another country is or is not treated as such by the Staging Authority will depend on the country in which the prior race was run.

For both the above purposes, positioning within the various parts of the ICS Book - determines policy, as shown below.
3.1 Sales Cataloguing

(a) Races listed in Part I:
The appropriate abbreviation for Group/Graded races (eg Gr1, Gr2, Gr3,) will follow the name of the race in question. Horses winning or being placed in the first three in Group/Graded and Listed races will be assigned ‘Black Type’ (ie the horse’s name will appear in a bolder typeface).

(b) Races listed in Part II:
Horses winning or being placed in the first three will be assigned ‘Black Type’ and the races are treated the same as Listed races for Part I countries.

(c) Races listed in Part III are published for information purposes only and do not confer Black Type.

Note: The above applies for sales catalogues that comply with standards recognized by the Society of International Thoroughbred Auctioneers (SITA).

3.2 Interpretation of Races Run Abroad, For the Purpose of Qualification for Races and/or the Assignment of Weights

(a) For countries whose major races are published in Part I only or in both Part I and Part II:
Races categorised as Group or Graded are regarded as Group/Graded races of the Group/Grade indicated. Other published races are regarded as Listed Races.

(b) For countries whose major races are published in Part II only:
All published races are regarded as Listed Races.

(c) For countries whose major races are published in Part III or not published in the ICS book:
A race described as Group I or Grade I is regarded as a Listed Race.

Agreed by:

ARGENTINA    HONG KONG    NORWAY
AUSTRALIA    HUNGARY    OMAN
AUSTRIA       INDIA       PANAMA
AZERBAIJAN    IRELAND     POLAND
BAHRAIN       ISRAEL      QATAR
BELGIUM       ITALY       SERBIA
BRAZIL        JAPAN       SINGAPORE
CANADA        KOREA (except § 2 and 3)    SLOVAKIA (except § 3.1 (c) and 3.2 (c)
CHILE         LEBANON     SLOVENIA
CROATIA       MACAU       SOUTH AFRICA
CYPRUS        MALAYSIA    SWITZERLAND
CZECH REPUBLIC MAURITIUS    TUNISIA
DENMARK       MONGOLIA    TURKEY
FRANCE        MOROCCO (partly,    UNGAR
GERMANY       categorization, A, B, C, D)    UNITED ARAB EMIRATES
GREAT BRITAIN NETHERLANDS    UNITED STATES OF AMERICA (except § 3.2.)
GREECE        NEW ZEALAND  URUGUAY
For countries whose major races are published in Part I only or in both Part I and Part II of the International Catalogue Standards (ICS) book: races are regarded as Group/Graded races of the Group/Grade indicated or as Listed Races if no Group/Grade is mentioned.

For countries whose major races are published in Part II only of the ICS book: races are regarded as Listed Races whatever the indicated Group/Grade.

For countries whose major races are published in Part III or not published in the ICS book: a race with Group 1 National status is regarded as a Listed Race.

This rule became effective January 1, 2009, with races prior to January 1, 2009 retrospectively evaluated based on the new rule. When referring to the ICS book to assist with interpretation of the rule, the publication for the appropriate year should be referenced based on the date of each race.

In reckoning qualifications, penalties and allowances, distances shown in English measures as well as weights, should be changed into metric distances by reference to the following way:

### Comparative tables between meters and furlongs

| 200 | meters = 1 furlong |
| 1000 | meters = 5 furlongs |
| 1200 | meters = 6 furlongs |
| 1400 | meters = 7 furlongs |
| 1600 | meters = 1 mile |
| 1700 | meters = 1 mile, ½ furlong |
| 1800 | meters = 1 mile, 1 furlong |
| 2000 | meters = 1 ½ miles |
| 2200 | meters = 1 mile, 3 furlongs |
| 2400 | meters = 1 ¾ miles |
| 2600 | meters = 1 mile, 5 furlongs |
| 3000 | meters = 1 mile, 7 furlongs |
| 3200 | meters = 2 miles |
| 3600 | meters = 2 ¼ miles |
| 4000 | meters = 2 ½ miles |
| 4800 | meters = 3 miles. |

- March 2013 -
To facilitate international movements of registered horses, it is essential to record and monitor their movements worldwide on a permanent basis; this requirement for traceability includes all of the journey (stop over for quarantine purposes included); Clearance notification, passport endorsements and/or export certificates must be documented accordingly.

There are two regimes covering the management of such horse movements:

1. Temporary exportation (see 3A, 3B and 3C)
   This is when the horse travels and returns to its country of departure within the given limits of time and itinerary indicated on the clearance notification or passport endorsement.
   With the prior agreement of the receiving authority, extension may be granted at the discretion of the issuing authority, to cope with exceptional circumstances.

2. Permanent exportation (See 3D)
   If the horse is being permanently imported for racing purposes and the importing Authority wishes to receive “Clearance” or related racing information on the horse, it should contact the Racing Authority of the country from which the horse was exported.

**Article 3 A (RACING) – CLEARANCES IN RELATION TO HORSES RACING ABROAD.**

**PLEASE NOTE: WITH EFFECT FROM 1ST JANUARY 2011, PASSPORT ENDORSEMENT IS NO LONGER AN OPTION FOR RACING ABROAD PURPOSES.**

**ALL TEMPORARY RACING MOVEMENTS MUST BE COVERED BY A RCN.**

I – GENERAL

Any trainer running a horse in a race abroad must ensure that the Racing Authority of the Country staging the race is in receipt of an internationally agreed clearance notification which will attest, to the best of the knowledge of its home Authority as defined hereunder, that:

- a) the horse is free of restrictions
- b) the trainer is duly licensed
- c) the owner is duly registered.

It is recognised that (a) different interpretations apply internationally to where a racehorse is ‘based’ and (b) the Rules of some Racing Authorities allow for a trainer to be licensed simultaneously in more than one jurisdiction. For the purpose of this Article, therefore, the ‘Home Authority’ is defined in relation to the horse. The horse’s Home Authority is the Racing Authority of the country in which the horse was recorded as being in training immediately prior to its departure to race in another racing jurisdiction and where it was foaled or, if exported, where its Export Certificate should be lodged.

Should the horse, trainer or owner be the subject of a restriction, the Home Authority will notify the Staging Authority and the trainer of the horse of the details.

Each country must submit for publication on the IFHA website [www.ifhaonline.org], the following information:

- a) The particular ‘restrictions’ of which they take account
- b) Contact details for lodging an RCN
- c) Details of the final declaration stage in that country
- d) Opening days and times of the Racing Authority’s office (GMT+/-)

Should a Staging Authority wish for information additional to that covered by the Home Authority’s RCN, they should make enquiry of the Home Authority.

II – PRACTICAL

1. When the horse is to run abroad on just one occasion before returning to its Home Authority:

   1.1 The trainer must request, on every such occasion, the horse’s Home Authority to send a RCN to the Staging Authority.

2. When the horse is to run more than once abroad in a single specified country before returning directly to its Home Authority:

   2.1 The trainer must request, prior to the horse’s first such race, the horse’s Home Authority to send a RCN to the Staging Authority.

3. When the horse is to race in more than one country abroad before returning to its Home Authority:
3.1 In the case of the first such race, the procedure outlined under (1) above should be followed. Thereafter, whenever the horse races in a different country from that of its most recent race, the trainer must request the Staging Authority of the country in which it has most recently competed to send an RCN to the Staging Authority of the country in which it is to race next.

3.2 An RCN issued by a Staging Authority will not attest to the good standing of the owner or trainer, but will either attest to the fact that the horse remains free of restrictions, subsequent to its most recent race, or specify any such restriction. Should the horse be the subject of a restriction, the Staging Authority imposing that restriction will notify the Staging Authority to which the horse is due to travel of the details and will also notify the horse’s Home Authority and the trainer of the horse of such details.

4. 4.1 The maximum period of validity for a racing clearance is 90 days. Should a horse remain outside the country of its Home Authority for a period of more than 90 days, its trainer must seek permission of its Home Authority for the continuation of this arrangement and check the local rules of racing. Should permission be granted, the Home Authority will issue a fresh clearance.

4.2 A clearance will become invalid should the trainer or owner of the horse change after issue, in which case a fresh clearance must be requested. The clearance will also become invalid as soon as the horse leaves the country of the Staging Authority.

4.3 Should a Staging Authority fail to receive a clearance in respect of a declared horse it may impose a fine and/or refuse to allow the horse to run in the race. If the horse is allowed to race without a clearance and irregularities subsequently emerge related to clearance then the horse may be liable to disqualification.

III – SPECIFIC

A) Racing Clearance Notification – (The model is shown as Appendix 1-A).

1.1 The portion of the RCN to be completed will depend on the circumstances of the horse’s travel. In the event of any change in those circumstances, the trainer must contact the horse’s Home Authority for a fresh RCN.

1.2 An RCN must be received in writing by email or fax by the Staging Authority no later than the day prior to the deadline for declaration (i.e. the last positive action required by a trainer or his representative to run in the race).

1.3 Authorities should process applications to issue an RCN as close to the day prior to declaration as practicable, thereby minimising the gap between issuance and racing.

1.4 RCNs can only be accepted at times when the receiving Racing Authority is open for business.

Signed / signé ................................................................. Date : ................................
Article 3 B (BREEDING) – CLEARANCE FOR HORSES BREEDING PURPOSES

Any owner sending a stallion or a mare abroad for breeding purposes must inform in advance the Approved Stud Book Authority of the country where the animal is standing at time of exportation, supplying the relevant details and requesting that this Stud Book Authority:

either

a) 1) Endorses the passport (sticker or stamp*) prior to export and,
   2) Informs accordingly the Approved Stud Book Authority of the country of final destination (by email or fax) transmitting the DNA certificate for the horse and, for pregnant mares, the DNA certificate(s) of the covering stallion(s).

(*) the model of the stamp / sticker is shown as Appendix 1-C.

or

b) Sends directly a Breeding Clearance Notification* (BCN) by email or fax to the Stud Book Authority of the country of final destination, transmitting the DNA certificate for the horse and, for pregnant mares, the DNA certificate(s) of the covering stallion(s). A certified copy of the Clearance should be delivered to the applicant for insertion into the relevant passport.

(*) the model of the BCN is shown as Appendix 1-D.

Before returning, the owner of the horse should apply to the Approved Stud Book Authority of the country of temporary residence for a further Clearance to be supplied to the Stud Book Authority of the country of permanent residence providing the details as stated above;

The clearance is valid for:
1) one breeding season (9 months maximum)
2) one country of destination

Any subsequent international movement beyond that covered by the BCN requires an Export Certificate to be issued, by the Authority which issued the BCN, to the country the horse is visiting next.

Any failure in the above detailed process could be detrimental to the breeding and or racing status of the breeding stock, including the relevant foals, and will therefore necessitate the transfer of the Export Certificate to guarantee the traceability of movements;

When signing the article the approved Stud Book Authority must clearly indicate which system they operate (a : Passport or b : Breeding Clearance Notification).

(1) Delete as appropriate / rayer la mention inutile
This is applicable only when a horse of whatever age, with the exception of foals under their dam, leaves its home country for a period of less than nine months and will return home inside that nine month period, the reason for travel being neither to race, nor to breed.

In this case, for each movement, the relevant Authority will, prior to departure, provide by electronic means a copy to its counterpart Authority in the country of final destination and issue to the applicant a GNM (see Appendix 1-E). On the horse’s return, the relevant Authority from which the horse is returning will, on application, issue to the Applicant a GNM and provide by electronic means a copy to its counterpart in the horse’s home country.

The notification is valid for one country of destination only. Any subsequent international movement beyond that covered by the GNM requires an Export Certificate to be issued, by the Authority which issued the GNM, to the country the horse is visiting next.

APPENDIX 1-E

MODEL GENERAL NOTIFICATION OF MOVEMENT

of a horse travelling temporarily outside its Home Country for purposes other than for Racing or Breeding

This notification is valid for a maximum period of nine months from the date of declared departure, provided there is no subsequent change in itinerary (Should the horse remain abroad for a period in excess of nine months, or in the event of any change in itinerary, an application must be made to its home Stud Book Authority for an Export Certificate).

Prior to return, an application must be made to the Stud Book or Racing Authority (as relevant) of the country to which it has travelled, for a General Notification of Movement covering the horse’s return journey.

Permanent Exportation

Article 3 D (RACING / BREEDING) – PERMANENT EXPORTATION.

Where the period of exportation is greater than the given limit shown on the Clearance Notification and/or the itinerary has been modified without consultation of relevant authorities and/or if there is no intention to return the horse to its departure country, or when the relevant Stud Book Authority regard all movements regardless of purpose or time frame as permanent, the Export Certificate must be sent to the Approved Stud Book Authority of the country to which the horse has moved.

Importing Approved Stud Books cannot accept an Export Certificate issued by a Stud Book Authority that does not hold Approved status from the ISBC.

Should the Stud Book Authority of the country of destination not be approved, a Certified Copy should be sent and the original Certificate retained until requested for by an Approved Stud Book. The DNA certificate must be appended to the Export Certificate.

In all cases those operations must be fulfilled prior to the horse travelling.

Article 4 (RACING / BREEDING) - USE OF A SUFFIX SHOWING THE COUNTRY OF FOALING.

In order to avoid having a number added to the name of a horse coming from abroad, the registered name must have a suffix added to it, showing the country of foaling.

The suffix between brackets is taken from the International Code of Suffixes (Appendix 2) and constitutes part of the animal’s registered name.

Article 5 (RACING) - HORSE PERFORMANCE RECORDS

Each Racing Authority must apply rules and procedures which seek to ensure that comprehensive and up-to-date records of the performances of horses in training in its country are maintained. These will include any performances for such horses prior to importation into the country, and where such horses travel abroad to race before returning home. The record of performances must include all the information laid down in Appendix 3.

More specifically, Racing Authorities should make provision within their Rules to seek to ensure that they are in possession of the following information:

- for any horse which is (i) entered for a race in the country concerned, but which is trained in another country or (ii) imported into the country for the purpose of racing: full performance records (histories).

- for any horse which is trained in the country concerned, but which leaves the country to race abroad before returning home: a record of the performance(s) when abroad.

Racing Authorities may, within their Rules, place responsibility on their owners, trainers or other relevant parties for the submission of the above information and for its accuracy. They may also attach requirements as to the necessary timing of receipt of such information.

Racing Authorities will make such information as is held by them available to each other, either by granting on-line access to the information or by providing such information on request.

A Staging Authority must also inform the Home Authority of any subsequent demotion or promotion of a horse trained abroad (for example, as a result of a finding of a prohibited substance).

* This does not include any Owners’ Premiums or Breeders’ Prizes
**Article 6 (RACING) - PROHIBITED SUBSTANCES**

**Objective**

1. The objective is to protect the integrity of horseracing, with attendant benefits as detailed in the ‘Introduction’ to this International Agreement, through controlling the use of substances capable of giving a horse an advantage or being disadvantaged in a race, contrary to the horse’s inherent merits.

**Sampling**

2. To establish whether a prohibited substance is present, samples shall be taken from horses that have run in a race. Horseracing Authorities may also take samples at any other time, according to their own rules. *Sample* means a sample from any part, or in contact with any part, of the horse.

3. A sample collected under a secure chain of custody shall be split into an A sample and a B sample. If the A sample is reported to contain prohibited substances, the B sample may be analysed for those substances, either automatically or optionally at the trainer’s or owner’s request.

4. In the event of a Horseracing Authority finding a prohibited substance in a sample taken from a horse which is entered or has run in a race within its jurisdiction but which is trained abroad, the Horseracing Authority where the horse is trained is to be informed and shall provide assistance when requested.

**Sanctions**

5. A horse shall be disqualified whenever a sample taken after it has raced contains a prohibited substance. The trainer of the horse shall be penalized, except when he has discharged his responsibilities as described hereunder beyond reproach.

6. Where a sample taken from a horse at any other time contains a prohibited substance, Horseracing Authorities may, according to their own rules, impose sanctions on the horse, trainer, owner or other persons.

**The trainer’s responsibilities**

7. The trainer shall always be responsible for:
   - the feeding, management, protection and security of the horses in his care
   - taking all reasonable precautions with the horses in his care to avoid their exposure to prohibited substances contrary to the rules of the Horseracing Authority
   - keeping informed of the possible consequences of treatment given to his horses.

**Raceday regulations**

8. With the exception of veterinarians authorized by the Stewards or Horseracing Authority, nobody shall bring into the stables of a racecourse on a raceday either a prohibited substance or any means of administering such a substance.

9. After a horse has raced and before it is discharged from any requirements for postrace sampling, no treatment with prohibited substances shall be allowed without official permission.
Prohibited substances

10. The following are prohibited substances:
   - Substances capable at any time of causing an action or effect, or both an action and effect, within one or more of the following mammalian body systems:
     - the nervous system
     - the cardiovascular system
     - the respiratory system
     - the digestive system
     - the urinary system
     - the reproductive system
     - the musculoskeletal system
     - the blood system
     - the immune system except for licensed vaccines against infectious agents
     - the endocrine system
   - Endocrine secretions and their synthetic counterparts
   - Masking agents
   - Oxygen carriers
   - Agents that directly or indirectly affect or manipulate gene expression.

11. A finding of a prohibited substance means a finding of the substance itself or a metabolite of the substance or an isomer of the substance or an isomer of a metabolite. The finding of any scientific indicator of administration or other exposure to a prohibited substance is also equivalent to the finding of the substance.

12. With the objective of helping trainers and their veterinary advisers, Horseracing Authorities may include in their own rules examples of prohibited and non-prohibited substances.

13. With the objective of providing guidance to horseracing tribunals, Horseracing Authorities may produce a classification of prohibited substances.

Thresholds

14. International thresholds can only be adopted for:
   - substances endogenous to the horse
   - substances arising from plants traditionally grazed or harvested as equine feed
   - substances in equine feed arising from contamination during cultivation, processing or treatment, storage or transportation.

15. Thresholds shall be recommended by the Federation’s Advisory Council on Prohibited Substances, after consultation with official analysts and veterinarians of signatory countries, and approved by the Federation.

16. Prohibited substances below the following thresholds are not actionable:

<table>
<thead>
<tr>
<th>Threshold name</th>
<th>Threshold</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arsenic</td>
<td>0.3 microgram total arsenic per millilitre in urine</td>
</tr>
<tr>
<td>Boldenone</td>
<td>0.015 microgram free and conjugated boldenone per millilitre in urine from male horses (other than geldings)</td>
</tr>
<tr>
<td>Carbon dioxide</td>
<td>36 millimoles available carbon dioxide per litre in plasma</td>
</tr>
<tr>
<td>Dimethyl sulphoxide</td>
<td>15 micrograms dimethyl sulphoxide per millilitre in urine, or 1 microgram dimethyl sulphoxide per millilitre in plasma</td>
</tr>
<tr>
<td>Estranediol in male horses (other than geldings)</td>
<td>0.045 microgram free and glucuroconjugated 5β-estrane-3β,17β-diol per millilitre in urine</td>
</tr>
<tr>
<td>Hydrocortisone</td>
<td>1 microgram hydrocortisone per millilitre in urine</td>
</tr>
<tr>
<td>Methoxytyramine</td>
<td>4 micrograms free and conjugated 3-methoxytyramine per millilitre in urine</td>
</tr>
<tr>
<td>Salicylic acid</td>
<td>750 micrograms salicylic acid per millilitre in urine, or 6.5 micrograms salicylic acid per millilitre in plasma</td>
</tr>
<tr>
<td>Testosterone</td>
<td>0.02 microgram free and conjugated testosterone per millilitre in urine from geldings, or 0.055 microgram free and conjugated testosterone per millilitre in urine from fillies and mares (unless in foal)</td>
</tr>
<tr>
<td>Theobromine</td>
<td>2 micrograms theobromine per millilitre in urine or 0.3 microgram theobromine per millilitre in plasma.</td>
</tr>
</tbody>
</table>

N.B.: The conjugated substance is the substance that can be liberated from conjugates.

- March 2013 -
17. For any finding of a prohibited substance, the Horseracing Authority may decide either itself or at the owner’s or trainer’s request to examine the horse further.

**Laboratory service**

18. The aim of signatory countries is that their laboratories should:

- be accredited according to ISO/IEC 17025, *General requirements for the competence of testing and calibration laboratories*, and to the supplementary document ILAC-G7, *Accreditation requirements and operating criteria for horseracing laboratories*.
- conform with the *Guide for establishing the presence of prohibited substances* (Part B of ILAC-G7).
- meet the *Performance specification of the International Federation of Horseracing Authorities (Appendix 4)*.
- take part in interlaboratory comparisons (clause 5.9(b) of ISO/IEC 17025:2005).
- control the detection of legitimate therapeutic substances through the application of internationally harmonised screening limits which have been recommended by the IFHA’s Advisory Council on Prohibited Substances and Practices and selectively adopted by the relevant signatory countries.

19. With the objective of preventing infringements, Horseracing Authorities may at their discretion:

- make available detection times
- give forewarning of new or modified tests
- provide an analytical service to establish whether a sample from a horse entered to race contains prohibited substances the trainer specifies.

Performance Specification of the Laboratories for doping control
required by the International Federation of Horseracing Authorities

This specification describes the minimum analytical capability required to detect exposure. It must not be construed as restricting in any way the chemical groups or concentrations that may constitute positive findings. Many laboratories will be able to surpass this specification, and the interpretation of whether a finding and a particular concentration would constitute a violation is governed by the relevant Rules of Racing.

Procedures should ensure that the laboratory can find prohibited substances in equine body fluids and prove their presence. Test methods must cover the chemical groups typified by the representative list. Each substance in the representative list must be detectable and identifiable at the concentration shown, if necessary after hydrolysis of metabolic conjugates. In addition, test methods must also reliably quantify threshold substances at concentrations that would be declared positive.

Article 7 (RACING) – SHOEING OF RACEHORSES.

Racing Authorities should ensure that, within their Rules, it is made explicit that they have the power to prevent the use in races of shoes which may be considered dangerous and liable to cause injury.

Racing Authorities are encouraged to publish clear illustrations in support of such Rules, in order that practitioners, both domestic and foreign, fully understand the terms used and the features of the shoes which are either allowed or disallowed. An example of such illustrations can be found at: http://www.racingvictoria.net.au/asset/cms/Stewards%20Notifications%20PDF/135971%20RVL%20Gear%20Register%20Book%2010.pdf

Racing Authorities should establish procedures whereby shoes are regularly checked, prior to racing.

Article 8 (RACING) – WEIGHING OF RIDERS.

Riders should be weighed before and after a race in order to control that the horse carries the correct weight in accordance with the conditions of the race.

When weighing out or weighing in, the following pieces of equipment should be excluded from the weight:

- body protector
- skull cap
- whip
- number cloth
- anything worn on horse’s legs
- breastplate – breastgirth
- bridle
- horse’s headgear
- martingale
- muzzle
- rings.

Article 9 (RACING) - OWNERS COLOURS.

Racing Authorities may include within their Rules restrictions on the designs (patterns) which may be used on owners’ colours. They may also include restrictions on the actual shades which may be used, and may define those shades, for example by reference to a proprietary colour matching system such as Pantone. An example of such restrictions is shown as Appendix 5.

Every horse coming from abroad runs in the registered colours of its owner subject to the Rules of Racing of the Racing Authority of the country staging the race. Thus, owners and trainers racing abroad should be prepared for the possibility that they may be required to race in alternative colours if, for example, two or more sets of colours declared for the same race are considered unacceptably similar to each other or if there are particular cultural or commercial sensitivities in the staging country.

On request by another Racing Authority, Racing Authorities must in a timely way provide details of the colours registered to any owner who has a horse declared in that other country. These details should, if requested, include both a textual description of the colours and a graphical representation in electronic format. Racing Authorities may further assist in the process, either by proactively making this information available, (for example at the time of the horse’s entry), or allowing inter-Authority on-line access to the information.

#### BASIC COLOURS

1. Beige
2. Black
3. Brown
4. Dark Blue
5. Dark Green
6. Emerald Green
7. Grey
8. Light Blue
9. Light Green
10. Maroon
11. Mauve
12. Orange
13. Pink
14. Purple
15. Red
16. Royal Blue
17. White
18. Yellow
NOTE: Pantone numbers refer to the shade match of the colours. The colours of silks and wools selected should correspond to the relevant Pantone number. This should be quoted when ordering racing colours from the manufacturer. Where colours produced on the racecourse do not comply with this range, fines may be imposed or owners may be asked to have the colours remade.
Article 9 bis (RACING) - ADVERTISING AND SPONSORSHIP.

Any form of advertising/sponsorship carried by a rider, a horse or a horse’s attendant during a race meeting should at all times comply with any restrictions imposed on advertising/sponsorship by the Horseracing Authority of the country where such race meeting is taking place.

Article 10 (RACING) - RIDERS RIDING ABROAD.

I. - Except where Horseracing Authorities insist on issuing their own licence, whenever a rider goes to take part in a race in a foreign country, he may ride in that country without a licence being issued by the Horseracing Authority of that country provided that he declares that he is the holder of a valid licence or permit to ride and that he is not currently under any suspension or medical restriction imposed by a Horseracing Authority and that he is currently free from injury and fit to ride at that time.

In order to assist a rider in riding abroad, a declaration sheet in five languages has been issued which allows a person to state to the Horseracing Authority of the country in which he has come to ride:

1. That he is the holder of a valid licence or permit to ride;
2. That he has not been penalised in a way which disallows him from taking part in a race;
3. That he is or is not subject to any future period of suspension;
4. That he agrees to be bound in all respects by the Rules of the recognised Horseracing Authority concerned when riding abroad and that he accepts that any suspension imposed by that authority may be extended by other Horseracing Authorities under their domestic Rules and in accordance with their laws of public order.

This paper, signed by the rider and endorsed by the Official is to be sent to the Horseracing Authority of the country where the licence has been issued, on the day after the race. The endorsement by the Official shall state whether or not the rider incurred a suspension and whether or not he had a fall. (Appendix 6)

* 

Countries in which the Horseracing Authority, appearing as signatory to this article, insists on issuing its own licence for foreign jockeys wanting to ride in the country: Australia, Hong Kong, India, Japan, Korea, Malaysia/Singapore, Mexico, South Africa (other than for brief visits).

* 

II. - When a rider has been suspended from riding in accordance with the Rules of Racing in force where the race is run:

a) This suspension shall be total and shall apply to all races run under those Rules of Racing.

b) Such suspension shall not commence before the ninth day following the racing offence, thus leaving time for the penalised rider to appeal and for the Horseracing Authority to hear the appeal. However, where a rider at the effective commencement of a riding suspension is already suspended by any Recognised Horseracing Authority, the new suspension shall begin at the commencement of the day following the completion of any previous period of suspension.

III.- When a rider is referred to the Horseracing Authority of the country in which he had ridden by the Stewards of the meeting or he appeals to that Horseracing Authority against a decision of the Stewards of the meeting, he should have the following minimum rights:

(i) to be informed, in a language which he understands, of the nature and cause of the accusation against him;

(ii) to have adequate time for the preparation of his defence;
(iii) to defend himself in person or be represented by a person nominated by him;

(iv) to examine witnesses against him and to obtain the attendance and examination of witnesses on his behalf under the same conditions as the witnesses against him;

(v) to have the free assistance of an interpreter if he cannot understand or speak the language used in the hearing.

Furthermore, when a rider is charged under the rules of racing of the country in which he has ridden then he must, in respect of either the hearing of those charges or the hearing of a subsequent appeal or appeals, be allowed representation by a person nominated by him who has a current approval to practice law in that country.

IV.- The Horseracing Authority of the country in which the rider had ridden, must immediately advise the Horseracing Authority of the country in which the licence or permit has been issued of the original suspension and subsequently of the result of any appeal hearing and, if deemed necessary, request that reciprocation of the penalty be applied. Such suspension will then automatically apply in the country where the licence or permit has been issued, subject to the domestic rules of racing made in furtherance of Article 10ter below.

V.- Any rider in a foreign country must comply with the Rules prevailing in the country staging the event as they concern the display of advertising on rider’s clothing.

Article 10 bis. - OWNERS, TRAINERS AND RIDERS BANNED ABROAD.

I.- When a horse is entered in a race run in a foreign country, its owner, trainer and rider will be deemed to have knowledge of the Rules of Racing applicable in that country and to have agreed to be bound by those Rules. Each country must make sure that this obligation is published when its principal races are published abroad.

II.- When a result of an original enquiry or an appeal hearing by the Horseracing Authority of the country concerned, an owner, trainer or rider is liable to be banned, the owner, trainer or rider should have the same minimum rights as laid down in Article 10. III above.

III.- When a ban is imposed, the Horseracing Authority must immediately advise the Horseracing Authority of the country where the owner, trainer or rider is registered or licensed, of the original ban and subsequently of the result of any appeal hearing and, if deemed necessary, request that reciprocation of the penalty be applied. The ban will then automatically apply in that country, subject to any special conditions required by the laws of natural justice in that country.
Article 10 ter. – RECIPROCATION OF PENALTIES

I. Each signatory to this Article shall include in its domestic Rules of Racing provisions dealing with the reciprocation of penalties. These provisions shall, to the maximum extent possible, mirror the contents of the following MODEL RULE:

“(a) Subject to sub-rule (b) of this rule, any person on whom a suspension or disqualification has been imposed by any recognised horseracing authority is a suspended person or a disqualified person under these rules so long as the suspension or disqualification continues unless the [name of domestic authority] declares that the suspension or disqualification shall not have effect under these rules. An application to the [name of domestic authority] for such a declaration may be made by the person suspended or disqualified provided that he has exhausted all procedures for appeal available under the Rules of the recognised horseracing authority.

The person suspended or disqualified must particularise reasons why he believes the penalty does not comply with the laws of natural justice.

(b) Where a person upon whom a suspension or disqualification has been imposed by a recognised horseracing authority has made an application for a declaration under sub-rule (a) or this rule, the [name of domestic authority] have power to defer the suspension or disqualification under these rules pending their decision on the application.”

II. In the event that the domestic authority does not reciprocate a penalty imposed by a recognised horseracing authority, it must, without delay, inform that recognised horseracing authority of its decision and the reasons why the penalty has not been reciprocated.
**APPENDIX 6bis**

**ARTICLE 10: MODEL FORM FOR REQUEST FOR RECIPROCATION OF PENALTIES ON RIDERS**

**PART 1**

To: [Name of Licensing Horseracing Authority]

[Name of imposing Horseracing Authority] wish to inform you in accordance with Article 10 IV of the International Agreement on Breeding, Racing and Wagering of the following sanction imposed on:

Rider’s Name ..................................................................................................................................................

Race meeting at which sanction was imposed ............................................................................................

Date of race meeting ....................................................................................................................................

Race number/time ..........................................................................................................................................

Offence ..........................................................................................................................................................

Number of days suspension ..........................................................................................................................

Applicable suspension dates .........................................................................................................................

*Has the rider appealed the sanction YES/NO

Date by which any appeal must be lodged ..................................................................................................

The Authority requests that this penalty be reciprocated by the Licensing Authority.

*If the rider has appealed the sanction PART 2 must be completed when the appeal is determined and forwarded to the Horseracing Authority in the country in which the rider’s licence or permit was issued)

Signed........................................................................ Date........................................

Name:...........................................................................

Position:...........................................................................

**PART 2**

Date of Appeal Hearing .................................................................................................................................

Decision of Appeal Hearing ..........................................................................................................................

Number of days suspension (if any) ..................................................................................................................

Applicable suspension dates (if any) ..............................................................................................................

*
Article 10 quater. - SUSPENSION OF HORSES

I. When a horse has been suspended from racing in accordance with the Rules of Racing in force where the race is run, the suspension shall be total and shall apply to all races and for such time as laid down under those Rules of Racing.

II. The Horseracing Authority of the country concerned must immediately advise the Horseracing Authority of the country in which the horse is trained of the suspension and of any appeal hearing and, if deemed necessary, request reciprocation of the penalty. Such suspension will then apply in the country where the horse is trained, subject to any special conditions required by the laws of natural justice in that country.

III. Requests for reciprocation of the penalty may also need to be made to other recognised Horseracing Authorities as applicable in order to prevent a suspended horse from racing in other countries.

Following such request(s) the suspension will then apply in the respective country subject to the conditions stated above.

**Article 11 (RACING) – TREATMENT FOR RACING PURPOSES OF HORSES’ AGES**

Racing Authorities may, for racing purposes, describe horses as being of an age which is not consistent with their actual age. In calculating the age of horses for racing purposes, they may make reference to a notional date on which the ages of horses are deemed to increase by one year. For example, most Racing Authorities in the Northern Hemisphere deem January 1st to be the date on which the described age of horses increases: horses foaled between January 1st and December 31st 2010 will be deemed to be yearlings between January 1st and December 31st 2011, and become 2-year-olds on January 1st 2012. Most Racing Authorities in the Southern Hemisphere deem July 1st or August 1st to be the relevant date.

When an Authority receives a race entry for a horse born abroad, it may wish to treat the horse, for purposes of race qualification, weight allocation, etc., as being of a different age from that described by that horse’s Home Authority. By way of illustration, one such treatment is shown as Appendix 7.

Racing Authorities must publish, or make available to other Racing Authorities on request, details of any different treatment (for race qualification and weight allocation purposes, in particular) which would apply to horses from other countries.

In order to give Staging Authorities the means to determine whether or not different treatment should be applicable, Home Authorities must, on request, make available to the Staging Authority not only the described ages of horses entered in that country, but also their dates of foaling.

Article 11 bis (RACING) – MINIMUM STANDARD GUIDELINES ON USE OF THE WHIP

This Guideline gives examples of use of the whip which are prohibited:

- Using the whip to the extent of causing injury.
- Using the whip with the arm above shoulder height.
- Using the whip with excessive force.
- Using the whip on a horse which is showing no response.
- The continued use of the whip on a horse after its chance of winning or being placed is clearly gone.
- The unnecessary use of the whip on a horse that has clearly won its race or has obtained its maximum placing.
- Using the whip on a horse which is past the winning post.
- Using the whip on the flank of the horse.
- Using the whip with excessive frequency.
- Using the whip on any part of the horse’s head or in the vicinity of the head.
- The use of the whip in front of the saddle while the whip is held in the forehand position, unless exceptional circumstances prevail.

*
A Thoroughbred is a horse which is recorded in the Thoroughbred Stud Book of the country of its foaling, that Stud Book having been granted Approved status by the International Stud Book Committee (Appendix 8) at the time of its official recording.

1: QUALIFICATION

For a horse to be eligible to be recorded in an approved Thoroughbred Stud Book all of the following requirements must be satisfied:

1.1 The horse must be the product of a mating between a sire and a dam, both of which are recorded in an approved Thoroughbred Stud Book or either or both must have been promoted from a Non-Thoroughbred register under the terms set out in Article 13 paragraph 4.1.

2: SERVICE TO PRODUCE AN ELIGIBLE FOAL

2.1 The Thoroughbred must be the result of a Stallion’s mating with a Mare which is the physical mounting of a Mare by a Stallion with intromission of the penis and ejaculation of semen into the reproductive tract. As an aid to the mating and if authorised by the Stud Book Authority of a country certifying the Thoroughbred, a portion of the ejaculate produced by the Stallion during such mating may immediately be placed in the reproductive tract of the Mare being bred.

3: GESTATION TO PRODUCE AN ELIGIBLE FOAL

3.1 A natural gestation must take place in, and delivery must be from, the body of the same Mare in which the Foal was conceived. Any Foal resulting from or produced by the processes of Artificial Insemination, Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation not herein specified, shall not be eligible for recording in a Thoroughbred Stud Book approved by the International Stud Book Committee.

4: RECORDING OF THE MATING AND RESULT

4.1 The details of the mating must be recorded by the Stallion owner or authorised agent on an official form or electronic system provided or approved by the Stud Book Authority certifying the Thoroughbred which should include:

4.1.1 name of the Stallion,
4.1.2 name of the Mare,
4.1.3 the first and last dates of mating to the Stallion and,
4.1.4 a statement signed by the Stallion owner or authorised agent that the mating was natural and did not involve the processes of Artificial Insemination, Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation (see 3.1).

4.2 The details of the Foal at the time of foaling must be recorded by the Mare owner or authorised agent on an official form or electronic system provided or approved by the Stud Book Authority certifying the Thoroughbred which should include:

4.2.1 name of the Stallion,
4.2.2 name of the Mare,
4.2.3 exact date of foaling,
4.2.4 colour of the Foal,
4.2.5 gender of the Foal,
4.2.6 name of the Breeder of the Foal who is the Owner(s) of the Mare at the time of foaling,
4.2.7 country of foaling
4.2.8 a statement signed by the Mare owner or authorised agent that the Foal was not the result of Artificial Insemination, Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation (see 3.1).

5: IDENTIFICATION & DESCRIPTION

5.1 The description of the Foal must be recorded by a person authorised by the Stud Book Authority on an official form or electronic system provided or approved by the Authority certifying the Thoroughbred which should include:

5.1.1 name of the Stallion,
5.1.2 name of the Mare,
5.1.3 exact date of foaling,
5.1.4 colour of the Foal,
5.1.5 gender of the Foal,
5.1.6 name of the Breeder (see 4.2.6)
5.1.7 country of foaling
5.1.8 a detailed description of permanent and acquired identifying markings of the Foal which should include all leg markings, face markings, hair whorls, scars, tattoos, brands and a microchip number, if found, which should be substantiated by either colour photographs or physical inspection.

6: PARENTAGE VERIFICATION

6.1 The Stud Book Authority certifying the Thoroughbred must require further evidence of parentage based upon typing of genetic factors present in blood, hair and/or other biological samples and must certify:

6.1.1 that the genetic typing is only undertaken by a laboratory approved by that Stud Book Authority for that purpose,
6.1.2 that the laboratory is an institutional member of ISAG and participates to the satisfaction of the International Stud Book Committee in comparison tests,
6.1.3 that all genetic typing results and details are maintained in strict confidence and are only disclosed to other Stud Book Authorities granted approved status by the International Stud Book Committee and,
6.1.4 the Stud Book Authority conducts routine genetic typing and parentage verification before registration of all horses applying for recording in their Stud Book.

Article 13 (BREEDING) - REGISTER OF NON-THOROUGHBRED HORSES

1. Scope and purpose of Register.

Where appropriate a register should be kept of horses which cannot be entered in an approved Thoroughbred Stud Book. The purpose of this register is to ensure that all relevant particulars of every horse named for racing purposes are known and registered.

2. Acceptance of broodmares and stallions in the register.

The criteria for the acceptance of broodmares and stallions to the register should be clearly defined.

3. Conditions for recording foals in the register.

The conditions for recording foals born to broodmares in the register should follow identically the conditions contained in sections 2, 3, 4, 5 and 6 of Article 12.

All foals recorded in the register should be published.

4. Promotion of horses from a register to an approved Thoroughbred Stud Book.

4.1. Procedure

4.1.1 A foal may be promoted from a register to a Thoroughbred Stud Book only when the following conditions are all satisfied:

4.1.1.1 the foal can prove eight thoroughbred crosses consecutively including the cross of which it is the progeny,

4.1.1.2 the foal’s pedigree can show such performances in races open to Thoroughbreds, in both the Thoroughbred and non-Thoroughbred sections of its pedigree as to warrant its assimilation with Thoroughbreds.

4.1.1.3 the promotion is approved by the unanimous agreement of the International Stud Book Committee.

4.2. Explanation of terms

4.2.1 A Thoroughbred cross. A cross, or mating, in which one or other partner is in the category of horse described in Article 12.1.1.

4.2.2 Performances. In assessing the adequacy of performances the following criteria should be adopted:

4.2.2.1 In general, the area in which the performances should be seen is the line in which the non-Thoroughbred flaw or "impurity" has occurred. This will usually be the tail female.

4.2.2.2 In the "impure" line there should be either:

- a horse which, by its performances, demonstrated that it was above the average for the breed, or,
- a sequence of horses with winning performances.

4.2.2.3 In general, the performances mentioned in 4.2.2.2 above should be found within at least the first three generations from the foal.
4.2.2.4. In considering the performances of a mare or stallion the performances of their other progeny may be taken into account.

4.2.2.5. Performances should mean wins, or possibly places.

Article 14 (RACING / BREEDING) - REGISTRATION OF NAME.

I The registration of a name for a horse can only be made by or with approval of the competent Authority of its country of birth.

For a horse born abroad, the application to register a name must be made through the relevant authority of the country where the export certificate is lodged.

The change of a name already registered and published can only be requested from the Authority which originally registered that name.

In the case of a necessary change for cultural reasons, the Authority making the change must:
1. liaise with the Authority which originally registered the name, in order to avoid duplication
2. inform all Authorities and Stud Books which have previously registered that horse.

II An International List of Protected Names is maintained and published by the International Federation according to the Rules adopted by the Executive Council. The List covers the names of certain horses whose fame derives from their accomplishments on the racecourse or at stud. The Rules governing inclusion on this List are set out under Appendix 9.

III Concerning names registered and not protected, the following criteria are provided as a guideline forming the basis upon which Authorities may establish a suitable period during which registered names will not be reused:

   a) in the case of stallions, 15 years after death or 15 years after the last recorded year in which they covered mares or at 35 years of age (whichever is the soonest).

   b) in the case of broodmares, 10 years after their death or 10 years after the last recorded year in which they were covered or produced a foal, or at 25 years of age.

   c) in the case of all other horses, 5 years after their death, or at 20 years of age (whichever is the soonest). An exception may be made where the name of a horse which has been reported as dead and has not raced is sought for re-use by the same applicant.

IV. Names cannot be accepted if they are already registered subject to the conditions on re-use of names set out above, nor if:

1. - they appear on the International List of Protected Names,
2. - they have more than eighteen characters, including signs or spaces,
3. - they are the name of a public person, without that person’s or their family’s permission, or names of commercial significance without the appropriate permission,
4. - they are followed by numbers,
5. - they are made up entirely of initials or include figures, hyphens, full stops, commas, exclamation marks, inverted commas, forward or back slash, colon and semi-colon.
6. - they are suggestive or have a vulgar, obscene or insulting meaning; names considered in poor taste; or names that may be offensive to religious, political or ethnic groups,
7. - in pronunciation, they are identical or similar to a protected name or a name registered for a horse whose year of foaling is within ten years of that of the horse in question.
8. - they start with a sign other than a letter.
9. - they are already registered to a sibling or parent of the horse in question.

Authorities may refuse to accept entries for races in respect of horses whose names do not conform to the above provisions.

The list of Protected Names is updated as follows:

1. Racehorses:
   a) Automatic addition of the names of the winners of the following 11 most important international races for 3 y.o. and upwards:

   South America (2):
   - Gran Premio Carlos Pellegrini
   - Grande Premio Brazil.

   Asia (4):
   - Melbourne Cup
   - Dubai World Cup
   - Hong Kong Cup
   - Japan Cup

   Europe (3):
   - Prix de l’Arc de Triomphe
   - King George VI & Queen Elizabeth Stakes
   - Irish Champion Stakes.

   USA (2):
   - Breeders’ Cup Classic
   - Breeders’ Cup Turf.

   b) Countries can propose to the IFHA Executive Council for approval, a maximum of 3 additional names per year of racehorses whose form justifies such a protection. Each such request must be supported by the following information:
   - the name of the horse
   - sex
   - colour
   - country of birth
   - the year of its birth
   - the name of the sire
   - the name of the dam
   - the name of the dam’s sire
   - Justification for the request
   - Race record.

2. Breeding stock:

   Protection is given to:
   - Broodmares who have produced at least two Group 1 winners and one other Black Type winner.
   - Stallions who have produced at least 15 individual Group 1 winners.

   Only those Group 1 races listed under Part I of the International Cataloguing Standards would qualify for consideration.

   The Secretariat of the International Stud Book Committee will update this list on a quarterly basis.
Article 15 (RACING / BREEDING) – IDENTIFICATION OF HORSES

The control of a horse's identity is one of the prime considerations in the operation of racing, breeding and health management. It is necessary that identity control should be made at the horse's first public race start as well as for every horse coming from abroad, and recommended for every claiming or selling race. This identity control has to be performed as well at every stage of breeding operations (covering, registration of foal, etc.). It is as well recommended before public sales.

The official papers which allow a horse to be identified can be separated into two categories:

1. Export Certificate:

The Export Certificate or Electronic Notification of Export (including markings) is sent directly or made available on a website by the exporting authority to the relevant authority of the country to which the horse is exported when the exportation is permanent, or when the period of export exceeds the period for which the clearance notification or the endorsement of the document of identification is valid (see Articles 3).

This Electronic Notification of Export must be accepted by the Approved Stud Book Authority of the country to which the horse has moved. In the exceptional case where an original document is needed, this fact is to be stated at the time of notification of export.

2. Passport:

2.1 The Stud Book Authority certifying the Thoroughbred, being the only Authority permitted to issue the original passport or any subsequent duplicates, must produce a passport which certifies:

2.1.1 the authenticity of the pedigree, the age, sex and colour.

2.1.2 the markings, photographs (if applicable) or other characteristics used to identify the Thoroughbred which should include all permanent identifying markings such as leg markings, face markings and hair whorls and may include other identifying characteristics such as night eyes/chestnuts, brands, tattoos, scars and microchips or other such electronic devices,

2.1.3 the parentage of the Thoroughbred based upon typing of genetic factors present in blood, hair and/or other biological samples

2.1.4 the Breeder and,

2.1.5 the Stud Book volume and page number where the Thoroughbred is recorded, or the Stud Book volume where the horse will be recorded in the future, or, if the Stud Book is recorded electronically, where to access the appropriate Stud Book record.

2.1.6 Additional pages for vaccinations and administrative endorsements.

2.2. The document should be printed in the principal language of the issuing Authority. It is a requirement that the principal information held within the document is also translated into English.

2.3 The document must always accompany the horse and should only be altered by, or with the express permission of, the issuing Stud Book Authority.

2.4 The loss of the document must be notified to the issuing Authority who are the only party permitted to issue a duplicate copy.

2.5 The document of a dead horse should be returned to the relevant Authority of the country in which it died.
3. Horses of Ambiguous Sex

3.1 For the purposes of this Article, ‘Ambiguous sex’ is the term used to describe the situation where the externally visible sexual characteristics of a horse are contradicted by its genetic makeup/internal organs.

3.2 When a Stud Book Authority comes by evidence of ambiguity in the sex of a horse, it should:
- Advise its Racing Authority
- Require the owner to return the horse’s passport.
- Suitably amend the horse’s passport to indicate the ambiguity of sex.
- Whenever relevant, inform the Stud Book Authority which registered the horse as a foal.

3.3 When a Racing Authority comes by evidence of ambiguity in the sex of a horse within its jurisdiction, it should:
- Advise its Stud Book Authority
- Require the horse’s owner or trainer (as appropriate) to alert the Racing Authority if they intend to make an entry to race in another country, prior to making such entry.
- On receipt of such an alert, notify the Racing Authority of the country in which it is intended to race the horse of the relevant facts in its possession as to the ambiguity of the horse’s sex.

3.4 A Racing Authority may, on the basis of information received as to the ambiguity of a horse’s sex, impose whatever restrictions it considers appropriate on its freedom to take part in races, or in specified race types.

**Article 16 (RACING) - GUARANTEED MONEY FOR ENTRIES**

A Racing Authority which forwards, on behalf of a horse’s owner/trainer, an entry for that horse in a race to be run in a foreign country is responsible for the payment of the monies required under that race’s conditions (such as entry and forfeit fees) in order for the horse to take part, unless specific alternative arrangements have been agreed between the respective Authorities.

- March 2013 -
Article 18 (RACING) - EXCHANGE RATE.

Where qualification, penalties or allowances are based upon prize money won, international comparisons should be calculated by reference to an exchange rate which each Horseracing Authority has set for this purpose. This exchange rate being the rate applicable on the first working day of the year will normally apply for a full Calendar year (other than in exceptional circumstances, such as when a currency is re-valued) and should be published by each Horseracing Authority for the benefit of participants as soon as practicable after 1st January. Countries may wish to publish their information on the IFHA website.

I. Racing Authorities may disqualify people and/or horses from participation in racing in their country. Some disqualifications may apply for a defined period of time; others may potentially be lifted at any time – for example, upon payment of an outstanding debt.

II. A Racing Authority may wish other Racing Authorities to uphold a disqualification which it has imposed upon a person or a horse. If so, an official request to this effect should be made. Upon receipt of such a request, a Racing Authority will apply the disqualification automatically, subject to any special conditions required by the laws of natural justice in that country.

III. Equally, Racing Authorities, when considering the possible future participation in racing in their country of a person or horse, may wish to be aware of any disqualifications in other countries to which that person/horse may be subject. Each Racing Authority will make available to others information on which people or horses are disqualified and, where applicable, the expiry date of such disqualification. This may be effected either through offering other Racing Authorities on-line access to such information or by responding to specific enquiries.

Article 21 (RACING) - TRANSFER ACCOUNTS.

In order to make international exchange easier, transfer accounts have been established between the various Racing Authorities within the limits of and according to the foreign exchange regulations of each country.

The keeping of these accounts is done in the currency of the country of origin in their books.

The use of these transfer accounts is limited to operations connected with racing and breeding and does not include payment for horses sold which has been transferred separately.

Agreed by:

ARGENTINA     AUSTRALIA     AUSTRIA     AZERBAIJAN    BAHRAIN     BELGIUM     BRAZIL     CANADA     CHILE     CROATIA     CYPRUS     CZECH REPUBLIC     DENMARK     FRANCE     GERMANY     GREAT BRITAIN     GREECE     HUNGARY     INDIA     IRELAND     ISRAEL     ITALY     LEBANON     MACAU     MAURITIUS     MONGOLIA     MOROCCO     NETHERLANDS     NEW ZEALAND     NORWAY     OMAN     PANAMA     QATAR     SAUDI ARABIA     SERBIA     SINGAPORE     SLOVENIA     SWITZERLAND     TUNISIA     TURKEY     UKRAINE     UNITED ARAB EMIRATES     URUGUAY
1. **Principles**

The international movement of horses both for competition and for breeding has increased significantly since the original adoption of the International Agreement on Breeding and Racing, in 1966.

The Horseracing and Stud Book Authorities (Horse Authorities) of the countries which are signatories to this Article recognise the need for scientifically based rules for the international movement of horses to prevent the spread of infectious and contagious diseases.

To this end they undertake to have the health principles contained in the health rules detailed below, applied in their respective countries on all racecourses, training centres, collecting centres and breeding establishments under their control, which receive foreign horses. They strongly recommend the application of the same rules to all horses, which may come in contact with imported horses and indeed to all places where horses are gathered.

Authorities undertake not to amend these rules in any way without consulting beforehand their counterparts in other signatory countries.

Rules, which should be drawn up in cooperation with the national veterinary authority, should cover the movement of horses between countries and, in the case of temporary movements, the separation into agreed groupings, the stabling and training of horses, whilst in the country of temporary import. Such rules aim to minimise the risk of disease introduction into, and disease spread within, a country and between countries.

Due consideration should be given to the provisions of the Office International des Epizooties * (OIE) Terrestrial Animal Health Code when formulating health rules.

All Authorities should be aware of the publication “Guidelines to Facilitate the Temporary Movement of Registered Racehorses for International Races” adopted by the 36th Conference of the International Federation of Horseracing Authorities (IFHA), October 2002. The Guidelines serve as a basis for discussion with each country’s veterinary authorities in order to achieve international harmonisation. Updated Guidelines are available on line at www.IFHAonline.org.

2. **Temporary Import**

   i. **Certification**

   All horses must fully meet the import conditions of the importing country (unless there is an agreed dispensation) and must be accompanied by health certification, issued by the National Veterinary Authorities of the exporting country. The health certification must confirm with that agreed between the National Veterinary Authorities of the exporting and importing countries and must include a detailed description of the horses being certified. This may be by reference to a passport, or another official identification document. In these cases, the number of the identification document and the name of the validating authority must be included on the health certification.

   Horses should travel with their passport, or another official identification document validated by an approved Horse Authority which is signatory to this Agreement.

   Prior to racing or breeding, the passport, or other official identification document, issued by an approved Horse Authority which is a signatory to this Agreement, must be inspected by the relevant Authority in the importing country to confirm the identity of the horse.
ii. Hygiene Requirements

All equipment used during transport, including vehicles and air stalls, should be thoroughly cleaned and disinfected prior to use.

All stables used for imported horses should be thoroughly cleaned and disinfected prior to use.

All disinfectants used for the above purposes should be approved for use by the National Veterinary Authority.

When arranging the stabling and training of temporarily imported horses, consideration should be given to the conditions that will apply when the horse is exported, as well as to national rules.

Access to stabling facilities should be restricted to authorised persons only and visitor records should be maintained.

Whenever necessary protection against insect vectors of disease must be practised by making use of physical barriers, timing of exercise periods, insecticides and insect repellents.

Standard Operating Procedures should be established in cooperation with the National Veterinary Authority and should cover biosecurity, management of stables and training of imported horses. All persons associated with the horses should be made aware of them.

Imported horses should be held under the supervision of an Approved Veterinary Surgeon who should be responsible for ensuring compliance with agreed protocols and Standard Operating Procedures.

The Approved Veterinary Surgeon will be a person approved by both the Horse Authorities and the National Veterinary Authorities of the importing country.

Standard Operating Procedures should set out the responsibilities of the Approved Veterinary Surgeon and should cover the use of local staff, facilities and equipment. They should also clearly define responsibilities and lines of communication.

The Approved Veterinary Surgeon or his/her approved delegate should be responsible for confirming the identity of imported horses, carrying out daily health inspections, including monitoring rectal temperatures (which should be taken and recorded twice daily) and for ensuring overall compliance with Standard Operating Procedures.

The Approved Veterinary Surgeon should liaise closely with the National Veterinary Authorities of the importing country and the Horse Authorities. The Approved Veterinary Surgeon should report, immediately, any significant signs of contagious or infectious disease.

iii. Welfare

Horse Authorities should advise connections of horses, and their shipping agents, to be aware of national and international welfare legislation and to give careful consideration to the welfare of horses when they are being transported.

Horses should be accompanied by personnel who are experienced in transporting horses by the method of transport being used and who are familiar with emergency procedures. There should be sufficient personnel to cover any emergencies that might occur.
When horses are to be exported by air due regard should be given to the Live Animals Regulations (LAR) of the International Air Transport Association *(IATA).*

Subsequent to their arrival at their destination and prior to commencing training and racing, horses should be inspected by an Approved Veterinary Surgeon to ensure that they are in a suitable condition to resume training or racing and are free from signs of infectious and contagious disease.

The relevant rules of racing of the Horseracing Authorities of the importing country relating to protection of the welfare of racehorses must be available to horse connections.

**iv. Treatments**

All treatments to horses must comply with the rules of racing and/or national regulations. All treatments should be recorded and all injections should be administered using disposable needles and syringes.

The relevant rules of racing and national legislation relating to the treatment of horses must be available to horse connections.

Vaccination of horses to reduce the risk of their introducing infectious disease as well as protecting them from acquiring disease from the indigenous population is strongly recommended.

Horseracing and Stud Book Authorities (Horse Authorities) should be aware of their National Veterinary Authority’s vaccination requirements.

Horse Authorities should give consideration to requiring vaccination against diseases, which are not covered by their national legislation.

Information on vaccinations and vaccination protocols should be available from the Horse Authority.

All vaccinations should be given by a registered veterinary surgeon.

A record, endorsed in writing by the administering veterinary surgeon, detailing the date of vaccination, the vaccine type and the batch number should be made, and should appear in the passport where one exists.

This record should accompany the horse and be made available to the relevant Authorities when required.

Article 24 (RACING / BREEDING) - HEALTH INFORMATION.

Horseracing and Stud Book Authorities should ensure that new information concerning the state of health of breeding and racing horses in their respective countries is communicated to their National Veterinary Authority and via the International Collating Centre* (ICC) to all signatories to this Agreement.

- It is agreed that the International Collating Centre shall send, to the Secretariat of the International Federation of Horseracing Authorities, its Quarterly Report as well as Interim Reports, for circulation to all its members.

- Every Horseracing and Stud Book Authority in conjunction with the country’s Thoroughbred Breeders Association, shall appoint one veterinarian, who will be the official contact with the International Collating Centre.

Horseracing and Stud Book Authorities should permanently liaise with their National Veterinary Authorities regarding measures to prevent spread or entry of disease.

When one Authority receives information from a third party or parties, correctly and in due time in accordance with that Authority’s Rules, and fails to convey the information to another Authority, or conveys it incorrectly, the intended or receiving Authority will wherever practical accept or correct the information as long as the original notification to that other Authority complied with the intended or receiving Authority’s Rules.

Notification to one Authority shall for these purposes be deemed notification to the intended or receiving Authority.

1. Standard of medical fitness to ride

Racing Authorities are advised that they should establish a medical standard for riders which is available in written form on request. When issuing a licence (permit), the Racing Authorities should ensure that the rider’s health conforms to the standard they have established.

2. Protective equipment

To protect riders from avoidable injury, Racing Authorities should ensure that each rider wears appropriate protection for the head, body and eyes. The equipment worn by riders should conform to whatever standards are in operation. Riders must be aware of equipment that is banned in certain jurisdictions.

* N.B. : The Appendix 10 bis is a guideline to riders on the standard protective equipment required to be worn by all riders by each Horseracing Authority.

3. Medical arrangements on racecourses

Racing Authorities are advised that they should establish a standard for medical personnel and equipment to safeguard the health of riders. The racecourse authority should ensure that this standard is implemented on race days.

4. Testing of biological samples – Control of prohibited (banned) substances

To protect the health of riders, to ensure a safe racing environment and preserve the integrity of the sport, Racing Authorities should establish a set of rules for the testing of biological samples in relation to the control of prohibited (banned) substances. The findings of a prohibited substance in a rider cannot lead to the disqualification of a horse.

* N.B. : The Appendix 10 ter is the minimum list of prohibited substances for riders.

5. Racetrack environment

Racing Authorities are advised that they should establish minimum safety guidelines to ensure that riders are not unduly exposed to any preventable hazard. The racecourse authority should ensure that these matters are addressed on every race day.

* N.B. : The Appendix 10 is a guideline set of standards which may assist Horseracing Authorities to define their own requirements.

1. Introduction – Mission statement

Race riding is an activity that requires each and every rider to exercise physical skills and judgement of an extremely high order. Any failure in a rider’s performance may not only put his/her life in danger but may also put others at risk of injury, permanent disability or death.

Assessing medical fitness to ride should be done by specialised Doctors in conjunction with the family Doctor.

2. Frequency – Age

Frequency:

Medical examination before 1st licence.

Regular medical checks as deemed necessary.

Age:

When issuing a licence, consideration should be given to the age of the applicant in relation to maturity (minimum age) and any possible decline in mental or physical skills (maximum age).

3. Content of medical examination / questionnaire

This document should include:

- a signed declaration by the rider to include details of his/her medical history.
- a full record of the physical examination to cover all aspects required for racing – including Item 4 (see below).
- a written declaration by the examining doctor certifying fitness to ride.

N.B.: It is the responsibility of the issuing authority to ensure that fitness to ride is taken in consideration when a licence is issued.

4. List of contra indications which must be published:

* means the jockey as well as the other competitors may be accountable for the risk.
The absence of * means that the jockey can be solely held responsible.

In the following list, R. means refused, D. means deferred.

a) Cardiovascular disorders *

<table>
<thead>
<tr>
<th>Condition</th>
<th>R</th>
<th>D</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ischaemic heart disease/(with current Angina)</td>
<td>R</td>
<td>Marfan’s syndrome – R</td>
</tr>
<tr>
<td>Heart failure – R</td>
<td>R</td>
<td>Treatment with anticoagulants – R</td>
</tr>
<tr>
<td>Myocardial infarction – D</td>
<td>D</td>
<td>Peripheral vascular disease (with claudication) – D</td>
</tr>
<tr>
<td>By-pass grafting – D</td>
<td>D</td>
<td>Chronic pericarditis – R</td>
</tr>
<tr>
<td>Angioplasty – D</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Cardiac transplant – R</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

b) Endocrine and metabolic disorders:

Diabetes *

- insulin dependent – R
- requiring oral medication – D
- controlled by diet – D

Thyroid disease – D

Diabetes insipidus – R *

Adrenal Disorders - D

C) Gastro-intestinal and abdominal disorders: *

Active peptic ulcer - D
Acute gastric erosion – D
Chronic gastritis – D
Cirrhosis decompensated – R
Chronic pancreatitis – R
Cirrhosis – D
Colitis (ulcerative or Crohns) – D
Colostomy, ileostomy - D
Gall stones – D
Haemorrhoids, anal fissure, fistulae – D
Inguinal hernia - D

d) **Genito-urinary and renal disorders:**
- Chronic renal failure – R
- Renal transplant – R
- Nephritis – D
- Kidney stones – D
- Single kidney or horseshoe kidney - D

e) **Gynaecological conditions:** *
- Pregnancy
  - normally – D
  - last three months – R
  - caesarian section – D
  - hysterectomy – D

f) **Haematology:** *
- Haemorrhagic disorders – R

**Hearing:** *
- Hearing should be adequate for the rider to hear all instructions and to ensure that the safety of other riders is not put at risk.
  - Any loss greater than 20 Db (binaurally) is pathological in a jockey.
  - New applicants – R
  - Existing licence holders – D
  - Bilateral total deafness, surdilmutism - R
  - One side total deafness with controlateral air and bone conduction loss greater than 20 db - R
  - Any disorder in the eardrum and medium cavum leading to a binaural hearing loss greater than 20 db - R
  - Acute otorrhoea – D
  - Unilateral uncompensated vestibular areflexia – R
  - Bilateral hyporeflexia with directional preponderance - R
  - Vertigo syndrome, resolvent after treatment of cause, in the absence of ideonystagmographic disorder - D
  - Perforated eardrum – D
  - Chronic suppurating otitis media – D
  - Otosclerosis – D
  - Prothesis – R

h) **Infections disorders:**
- Tuberculosis (active) – R
- Hepatitis – D
- HIV positive – D
- AIDS syndrome – R

i) **Medication:**
- If an applicant requires, or has required, regular medication to maintain his/her physical or mental wellbeing, a licence may be declined.
- If any of the following statements applies, the Licence/Permit will invariably be declined or deferred:
  1) The therapeutic effect of the medication may put the jockey at risk when he/she rides or falls.
  2) The side effects, actual or potential, of the medication are such that they could interfere with the jockey’s physical capability, judgement, coordination or alertness.
  3) A voluntary or involuntary adjustment of the dosage, administration or absorption of the medication could interfere with the jockey’s physical capability, judgement, coordination or alertness.

j) **Musculo-skeletal disorders:**
- Amputation of a limb or part of a limb – R (loss of digit(s) will be reviewed on an individual basis - D
- Artificial limbs – R
- Fracture – D (see below)

Fractures – Before applying to return to race riding after any fracture or dislocation, the jockey should have an appropriate range of pain free movement and be able to show that his/her ability to ride is unaffected. No jockey may race wearing a plaster cast, backslab, fibre-glass support, prosthesis or similar appliance.

Fractures of the skull and spine are of particular concern and medical clearance by the Medical Advisor is required in every case. This will normally involve an examination by the Chief Medical Advisor.

- Dislocated or subluxed shoulder – first occassion – D unless the jockey is under the age of 25, when a surgical repair should be completed (as for ‘recurrent’ – below)
- Dislocated or subluxed shoulder – recurrent – R until a surgical repair has been completed.
k) Neoplasia / cancer – D

l) Neurological disorders: *

- Chronic migraine – D
- Chronic neurological disorders (eg. Parkinson's disease, multiple sclerosis, etc.) – R
- Cerebrovascular disease – R
- Meningitis or encephalitis – D
- Intracranial tumour requiring craniotomy – D
- A-V malformation after a bleed – R
- Intracranial aneurysm – R
- Narcolepsy – R
- Pituitary tumour - no visual field defect – D
- - with visual field defect – R
- Unexplained loss of consciousness – D
- Subarachnoid haemorrhage – D – see epilepsy / single seizure below
- Intracranial haematoma – D – see epilepsy / single seizure below
- Serious head injury – D – see epilepsy / single seizure below
- Craniotomy/Burr hole surgery – D see epilepsy / single seizure below

Epilepsy – R unless the applicant can meet the criteria relating to epilepsy in the current DVLA Medical Standards of Fitness to Drive – Group 2 (VOC-LGV/PCV-September 2009)

Single seizure – following acute head injury, intracranial surgery or use of epileptogenic medication (e.g. Tramadol) – D

PLEASE NOTE – following any cranial fracture or surgery, the integrity and/or strength of the skull must not be significantly compromised.

m) Psychiatric disorders:

- Most mental illness affects the ability of the person to exercise sound judgment (due to the illness), or affects their ability to co-ordinate and remain alert (due to the side effects of the medication, which are frequently of a sedative nature). Either feature may endanger the well being of both the individual and other jockeys.

- Organic – disorders – R
  (Including: all forms of dementia, delirium, organic brain disorders as a result of brain damage, neurological, metabolic or endocrine dysfunction)

- Any diagnosis under psychoactive substance use – R
  (Including: states of acute intoxication; dependence, withdrawal; side effects – for alcohol, recreational drugs or solvent use)

- Residual damage from substance use or abuse – D

- Schizophrenia and Delusional disorders – R
  (Including: all types of schizophrenia, schizoaffective disorders and acute and transient psychotic disorders)

- Mood disorders
  Depression – D (specialist opinion will be required with particular attention to the method of treatment. A significant number of the drugs used to treat depression will have sedative side-effects and affect co-ordination and/or physical capabilities).
  Mania – R
  Bipolar disorder – D

- Anxiety disorders
  Generalised anxiety – D (specialist opinion required to review the severity and mode of treatment).
  Panic Disorder – R

- Personality disorders – D (specialist opinion required in every case)

- Antisocial personality disorder also known as Dissocial or Psychopathic – R

- Behavioural, Emotional and Developmental disorders
  ADHD (adult form) – D (specialist opinion required)
  Autistic spectrum and Aspergers Syndrome – D (specialist opinion required)

n) Respiratory disorders: *

- Asthma – D
- Chronic obstructive airways disease – D
- Traumatic pneumothorax – D (normal recovery 6-8 weeks)
- Spontaneous pneumothorax:
  - recurrent – R (until the condition has been stabilised by surgical intervention)
- Emphysema – D
- Respiratory insufficiency or significant shortness of breath - R
o) Surgery / Operations - D

Following any form of surgery, an applicant must obtain clearance from the specialist carrying out the procedure and, in the case of open abdominal surgery, must have waited a minimum of 6 to 8 weeks from the date of the operation before applying. The specialist will normally be required to provide a written report but, in certain circumstances, direct discussion with the Chief Medical Advisor may be acceptable.

p) Visual acuity: *

Corrective lenses are acceptable provided that there are in the form of “soft contact lenses”. MINIMUM requirement (with or without corrective lenses):

- Distance vision – the “good” eye must be 6/9 or better
- the “worse” eye must be 6/18 or better

- Monocular vision – D
- Significant visual field defect – R (homonymous hemianopia, bilateral glaucoma, bilateral cataract, bilateral retinopathy, etc.)
- Diplopia – D
- Retinal detachment – D
- History of surgery to restore or save eyesight - D

5. Appeal mechanism

Provision should exist for riders to appeal any refusal to grant a licence based on medical grounds.

* 

**MEDICAL ARRANGEMENTS ON RACECOURSE**

1. Introduction / Mission statement

Medical arrangements on racecourse should be covered by a guide. This guide should ensure that prior to racing all arrangements are in place as listed below and racing is safe to proceed.

2. Personnel

- Doctor (mandatory)
- Paramedics ambulance personnel (mandatory)
- Nurse for infirmary
- First aid fence attendants

3. Transport

- Ambulance (mandatory)
- Route of access for ambulance to all areas of the track

4. Equipment appropriate

Equipment should be available to cope with any situation that may arise.

- Doctor
- Ambulance
- Infirmary

5. Communication

Permanent availability of communication between all medical staff involved on the racecourse and between the racecourse and outside specialised services.

**TESTING FOR BIOLOGICAL SAMPLES**

Details of all procedures should be available for riders in writing. This should include a list of prohibited substances, and practices, with details of all penalties imposed for infringements.

*
Preventable hazards

Introduction
The conduct of racing involves the use of a number of fixed and moveable structures which may pose a hazard to riders. Racing Authorities should establish minimum safety guidelines for the following areas of concern.

Rails and marker poles
Rails and marker poles should preferably be flexible and concrete should be avoided.

Parade ring / paddock
Non-slippery surfaces for horses are recommended. Access should be controlled.

Obstacles / wings / bypassing procedures
Obstacles should be constructed so as to be fair to both riders and horses. Wings should be flexible (see rails and marker poles above). Arrangements for bypassing should be prepared when appropriate.

Starting stalls / tapes – elastic
Starting stalls / tapes should be well maintained and regularly tested.

Public / horses
Provision should be made to separate members of the public from all equine areas before, during and after racing.

Ground, landing site, lightening, meteorology
When adverse conditions put the safety of riders at risk, racing should be suspended.

Map of the course
A clear map and instructions should be readily available on race days for riders.
GUIDELINE STANDARDS OF RIDING EQUIPMENT
required by Horseracing Authorities to protect riders from avoidable injury

STANDARD OF PROTECTIVE EQUIPMENT ALLOWED

APPENDIX 10 ter

Prohibited Substance Guidelines

This list is the minimum list of prohibited substances for riders.

1. Narcotics
2. Cannabinoids
3. Diuretics and masking agents
4. Alcohol
5. Stimulants
6. Psychotropic drugs
7. Anabolic agents
8. Beta-blockers
9. Anaesthetics
10. Muscle relaxants
11. Sedative medication
12. Gamma-hydroxybutyrate (GHB) and pro-drugs of GHB (1, 4-Butanediol, Gammabutyrolactone) at or above a threshold of 10 micrograms per millilitre.
13. Lysergic Acid Diethylamide (LSD)

*
Article 28 (WAGERING) - WAGERING

I. In the International Agreement the term wagering shall be taken to include, without limitation, totalizator, pari-mutuel, fixed-odds or any form of bookmaking and/or betting exchange operations by whatever means (including, without limitation, electronic and telecommunications media through the Internet, interactive TV, telephone, mobile phone and other "hand-held" devices).

II. Each signatory of this Article shall respect the jurisdictional integrity of every other signatory in the provision of wagering on racing.

III. The use of racing events, pictures and data relating thereto for wagering purposes shall only be made with the express consent of the organisation staging those racing events and/or its authorised licensees and franchisees and/or other relevant rights holders.

IV. Wagering opportunities shall only be offered in another country with the express consent of that country's relevant governmental authorities, if required, and in compliance with the legal and regulatory requirements of that country.

V. All signatories to this Article shall inform their respective governments or governmental supervisory institutions about their adoption and observance of this Article and, subject to paragraph VI of this Article, shall undertake all possible efforts to lobby for legislative and/or regulatory support of this Article and to prevent wagering operators based in its jurisdiction from acting in breach of paragraphs III and IV of this Article.

VI. Where a signatory to this Article is a body that does not have direct control over wagering then the obligations of this Article shall be read as being a commitment of best endeavours to promote respect for the Article within its jurisdiction.

VII. The signatories to this Article shall strive to ensure complete integrity and security of their respective operations. Every effort will be made to ensure that wagering will be conducted fairly and not used as a means for any illegal activities, in particular, for money laundering.

Appendix 11 to be found on IFHA Website [http://www.ifhaonline.org/resources/2008_Appendix11.PDF] sets out a Standard for the international transmission of data relating to forthcoming races, in support of wagering activity. This encompasses both the data elements to be included and the format in which they should be transmitted.

Where countries enter into agreement that such information should be provided, the transmitting country should observe the Standard, upon request from the recipient country.

The granting of a licence to a trainer or the granting or renewing of a licence to a rider by a Horseracing Authority should as a guideline take account of the following criteria in order to safeguard the welfare of participants and the horse.

**TRAINERS**

**Experience and Qualifications**

Trainers should:

1. Have sufficient experience of working in a training establishment;
2. Be able to demonstrate recognition of the signs of normal health, common diseases and ailments in the horse and have an understanding of preventive medicine and veterinary treatment;
3. Be able to demonstrate the principles of exercise physiology and feeding;
4. Possess sufficient knowledge of racecourse procedures and the Rules of Racing of the Horseracing Authority;
5. Possess any formal qualifications required by the Horseracing Authority - for example, a qualification in Racehorse Care and Management.

**Facilities**

Trainers should:

1. Possess suitable premises including adequate stable arrangements. (The applicant or a suitably experienced and responsible employee to live at the premises);
2. Have access, within a reasonable distance, to gallops or facilities for training racehorses;
3. Where necessary, have access to starting stalls for schooling horses through starting stalls;
4. If relevant, have access to obstacles or nursery facilities for schooling or teaching horses to jump.

**General**

1. The applicant to be considered of “good standing”.
2. The applicant to provide suitable references in support of the application.
3. The applicant to provide a relevant business plan for the first 12 months of operating, if required.

**RIDERS**

**Experience and Qualifications**

Riders should:

1. Demonstrate sufficient riding competence and experience as required by the Horseracing Authority including the satisfactory completion of an apprenticeship or riding course.
2. Satisfactorily complete any training and assessment course as required by the Horseracing Authority.
Medical Fitness

1. Comply with the medical standards established by the Horseracing Authority (see Article 27).

General

1. The applicant to be considered of “good standing”.
2. The applicant to possess sufficient knowledge and appreciation of the Rules of Racing insofar as they affect Riders.

*
Article 30 (RACING) - HEADGEAR

Racing Authorities will normally stipulate the types of headgear which horses may or may not carry in a race. Furthermore, in the interests of providing accurate information to the wider racing and betting public, they may require that some or all of the permissible headgear must be declared in advance. Some Authorities disallow the wearing of certain combinations of headgear. Headgear may be known by different names in different countries.

Penalties for non-compliance vary from country to country, but may include fines or prevention from participation in the race.

To avoid confusion and misunderstanding when horses race internationally, therefore, Racing Authorities will make available to others clear information on the Rules relating to headgear which apply in their countries, either by granting on-line access to the information or by providing it on request. It is strongly recommended that this includes graphical representations of the types of headgear permitted, (an example is shown below), to help avoid misunderstandings caused by varied terminology.
